# POOL SAVER

Billing Credit for Residential  
Swimming Pool Owners

Energy Efficient  
Pool Pump  
Rebate Incentive

A Public Benefits Program  
brought to you by

[www.riversidepublicutilities.com](http://www.riversidepublicutilities.com)

## What is POOL SAVER?

Pool Saver is a public benefit incentive program that offers residential in-ground swimming pool owners a \$5 credit on their monthly electric bill for setting their pool pump's automatic timer to operate during off-peak hours.

## What are the benefits?

Keeping electric use down during peak demand helps keep electric rates in line by reducing the need to build new power plants. In exchange for shifting energy demand to off-peak hours, Pool Saver gives pool owners a \$5 monthly credit on their electric bill.

## How does the program work?

Follow these step-by-step guidelines to qualify for a Pool Saver billing credit:

1. Applicant must be a Riverside Public Utilities residential electric customer. Only one Pool Saver credit per eligible household.
2. Swimming pool must be a permanent fixture with a permanently installed pump, motor, filter and automatic timer to control the operation of the pump. The pump's motor must be rated at a minimum of three-quarters horsepower. Spas are not eligible for Pool Saver's billing credit program.
3. Reset your pool's automatic timer so that the pumps do not operate between noon and 10 pm when the demand for electric power peaks.
4. Complete and return the Pool Saver Agreement with your utility payment or mail separately to Riverside Public Utilities.
5. Following receipt of a signed Pool Saver Agreement, allow six to eight weeks for the Pool Saver credit to appear on your bill.

*As a Pool Saver participant, you agree that Riverside Public Utilities has the right to inspect your pool's automatic timer for the proper settings any weekday between the hours of 8am and 5pm.*

## Who should sign up?

Any residential electric customer served by Riverside Public Utilities who has a permanent in-ground swimming pool and the appropriate pump, motor, filter and timer equipment is eligible to participate in Pool Saver. Commercial and public swimming pools are not eligible for pool credit program due to health regulations that require them to run pump motors when pools are in use, including on-peak hours.

## Energy Efficient Pool Pump Rebate

Riverside Public Utilities (RPU) provides incentives for the purchase and installation of new energy efficient pumps for in-ground pools and in-ground spas. The intent of the program is to promote energy conservation by encouraging the use of the most energy efficient pool pump (EEPP) available.

## Program Guidelines

- This program is available to Riverside Public Utilities residential electric customers for the purchase and installation of new energy efficient pumps for in-ground swimming pools or in-ground spas. If applicant is a tenant or renter, the property owner must sign the application.
- The level of incentive is \$100-\$140, based on the new, qualified, Energy Efficient Pool Pumps (EEPP) size and efficiency, not to exceed the purchase price of the new unit. **Call RPU or check our website for the list of qualifying EEPP.** Pool pumps not appearing on the partial list may qualify. Customer must submit proof of energy efficiency from the manufacturer for pumps not appearing on the list.
- Qualified units must be installed and in operation at the customer's service address before applying for a rebate.

- Incentive is available for the purchase of one qualified pool pump per electric account per calendar year.
- Once pool pump is installed, mail your application along with copies of legible, dated sales receipt as proof of purchase to Riverside Public Utilities.
- EEPP subject to inspection for program compliance. Customer's failure to permit such inspections shall obligate the customer to repay the amount of the incentive received by the customer for that installation. The incentive amount shall be billed on the customer's regular utility billing from the City and shall be a part of customer's utility service charges payable to the City.
- Customer must sign liability agreement on application.
- Application must be submitted within ninety (90) days of receipt purchase date in order to qualify for rebate.
- RPU reserves the right to determine product eligibility.
- **Program is subject to change without prior notification. Rebates are given on a first come, first serve basis subject to fund availability.**
